

Model: GKH/90**Description:** Gas tilting brat pan with manual tilting**Code: 0106915382****Approval seal: CE** No. 0085AR0322**Conformity EN:** 60335, 203-1, 294, 349**Protection degree:** IPX4**Energy supply:** gas (LPG and natural gas)**External dimensions BxTxH:** 1200 x 850 x 850 mm**Installation:**

- On feet
- On plinth

Quantity of the cooking areas: 1**Nominal gas power rate:** 15,0 kW (12.900 Kcal/h)**Nominal capacity of the pan:** 71 litres **Effective capacity of the pan:** ca. 54 litres**Int. size of the pan BxTxH:** 868 x 605 x 165 mm**Execution:**

- Panelling in stainless steel (AISI 304)
- Satinated surface treatment "Scotch Brite"
- Adjustable feet in heights between 150 and 200 mm
- Basin bottom in iron-stainless steel (AISI 304) - compound, welded without joints with the basin panels in stainless steel (AISI 304)
- Double lid in stainless steel, spring balanced
- Tilting with handwheel

Features:

- Regulation of the bottom temperature from 80° to 320°C through a thermostatic gas valve
- Piezo lightening
- Constant readiness of working because of mainly protected ignition flame against contamination
- 6 longitudinal burners
- Filling of the basin through a water battery

Control panel:

- Clearly arranged control and regulation elements at the side column
- Thermostat valve for the regulation of the desired temperature of the pot bottom (° C)
- Integrated piezo igniter
