

ISO-ASSEM REFRIGERATION

Set a new trend in refrigeration system, The ISO-ASSEM model is innovative in design without aesthetic and technical compromises. This model is shipped knock-down in compact package; to be unpack and reassembled at the work site even by novice technicians. Ideal for application where units have to be delivered through tight spaces. ISO-ASSEM knock-down packing takes advantage of lower shipping cost and can minimize damage during transit. Every unit is preassembled and tested at factory to ensure proper fit and technical performance.

Optional - Heavy duty caster

General Specification:

Refrigerant	: R134a / R404a
Ref. System	: Forced Air
Defrosting	: Electric
Voltage	: 230v/1ph/50 or 60Hz

	Model	Model
-2°C ~ +8°C	IA70XP1B	IA70XP2B
-15°C ~ -22°C	IA70XN1B	IA70XN2B
Dimension(WxDxH/mm)	720x850x2000	720x850x2000
Shelves(pcs/WxD)	3 (530x650)	3 (530x650)
